10 YEAR PLAN

A world first tested & proven place-based, Collective Impact incubation approach.

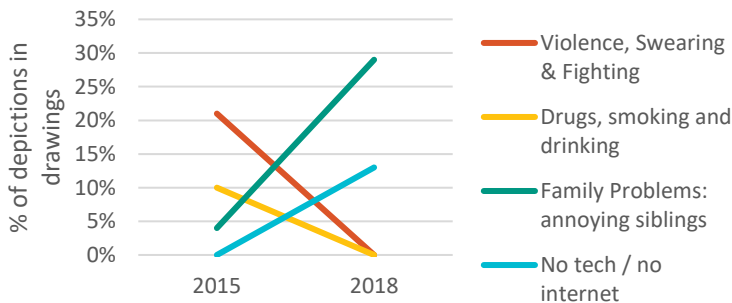

ASIT brings an independent mindset to help facilitate all parties to work on a particular social challenge, for instance *It's Our Place* Bellambi.

- We act as a **neutral facilitator**
- We set up **advisory boards**, involving all relevant and necessary stakeholders as well as the government "owner"
- We secure **commitment and resources** by all key stakeholders
- We encourage all advisory board members to **collaborate** by sharing all parties needs and goals
- This encourages **information sharing**
- The solution(s) is set by the community, the board and all parties involved support it
- Implementation is mapped out and tracked by independent facilitators
- **Measurement** of implementation and its effects are reported to the stakeholders
- Our Board **adjusts goals or sets new goals**, in an iterative manner based on need

"Personally, for me, I get to do things. I don't have to sit at home, feeling like, just isolated. At least you can feel part of it, if you want to. Everyone is welcome."
